

IAQ, Inc. President Eric Shapiro to Present Abstract at International Conference on Bioaerosols Fungi, Bacteria, Mycotoxins and Human Health

Northfield, New Jersey, August 28, 2003 – IAQ, Inc. President, Eric Shapiro is scheduled to present an abstract titled **Physical Factors and Distribution of Fungal Contamination in a High Rise Building** at the 5th Annual International Conference on Bioaerosols Fungi, Bacteria, Mycotoxins and Human Health. This year's conference will be held at the Gideon Putnam Conference Center in Saratoga Springs, New York from September 10 –12.

Shapiro is recognized as a leader in the field of microbial abatement. His knowledge in building sciences coupled with his many years at the forefront of air quality remediation puts him in a select group of certified abatement specialists. Shapiro commented, "It's a great honor to be selected to present this case study to such a prestigious gathering of industry experts. This conference brings together a wide range of international leaders in the field of bioaerosols and their impact on human health." Other sessions at this year's conference include Health and Epidemiology, Environmental Assessment and Prevention and Control.

The conference will address state of art research and practical experience to improve the understanding of microbials, determine important agents and adverse human health effects, and the treatment, control and prevention of exposure. Knowledge gaps and research priorities will be discussed. This scientific meeting will connect internationally recognized researchers and leading investigators with "front line" practitioners and consultants addressing "real world" indoor environment quality problems.

About IAQ, Inc.

IAQ, Inc. is headquartered in New Jersey with offices in Atlantic City, New York City, Philadelphia and Aventura, Florida. Mr. Shapiro, a twelve-year veteran of the industry, holds a master's degree and is certified with the Association of Energy Engineers, American Indoor Air Quality Council, National Comfort Institute and the National Air Duct Cleaners Association. Mr. Shapiro has written specifications for and managed major mold remediation and air duct cleaning projects around the country. In addition, Mr. Shapiro is an instructor to other contractors and consultants, teaching the American Indoor Air Quality Council's certification course in Microbial Remediation.
